# Announcement for 1892.

In keeping with the splendid progress of Buffalo, the City Directory for this year is a larger and handsomer volume than any in the long series of its predecessors, and, its publishers are confident, will satisfactorily fill its indispensable mission as a public convenience. Unremitting care has been given to its preparation, with accuracy and completeness the cardinal objects in view. That these have been attained as nearly as practicable, it is believed the patrons of the work will learn from its use. The wonderful pace of the city's growth, the expansion of its improved territory and the multiplication of its business and other interests, would outrun anything save the most painstaking effort in the making of an adequate Directory, but in all its departments the edition for 1892 can be expected to meet every requirement.

In excellence of arrangement and typographical beauty, the Directory challenges comparison. Its producers are satisfied that it will in these respects surpass any other similar publication. There is no need to dwell on these points. The book speaks for itself.

Improvements in the systematization of the work will be observed, although in this regard last year's volume was so nearly perfect as to invite no extensive changes of the plan. The constant aim has been to secure the acme of convenience by the simplest, while at the same time most thorough, kind of classification. Amply indexed, arranged to facilitate quick consultation, and admirably comprehensive in its scope, it makes good the compiler's repeated purpose to furnish "a complete work of reference and guide to the Queen City of the Lakes, her population, commercial and industrial interests,

public institutions, and all other noteworthy features." In fully meeting a distinct public want, the Disectory is an important public benefit.

In view of the constant improvement of heretofore waste lands, the development of new sections with the laying out of streets, avenues and boulevards, the Street Directory is a feature of large consequence. It has been made up with exactness. The following comparison with last year shows a notable increase:

1892	Streets. S52	Avenues, 259	Allege.	Pinces. 90	Parkways.	Total. 1,259
1891	807	209	45	82		1,143
Increase	45	.50	6	8	7	116

Within the past year 31 public streets and alleys have been abandoned, but enumeration and description of these are retained as guides in the establishment of title to property. Again attention is directed to the city's very convenient system of numbering, by which accurate measurements of distances may be readily made, every number representing ten feet. No. 528 Main street is, therefore, just one mile from its beginning at Buffalo River; No. 100 Seneca street precisely 1,000 feet east of Main, etc.

Liberal information will be found in the Directory regarding the government of the city and county, the federal offices, the churches, schools, charitable and other institutions, both public and private, railroads, banks, clubs, fraternal and beneficiary associations, etc., and, as an appendix, the city's mortuary record of 1891 is given.

The Directory for 1892 contains, by actual count, 91,261 names, an increase of 39,097 in 10 years, the number in the book of 1882 having been 52,164. Assuming the very conservative basis of 3½ persons for each name, the population of Buffalo is shown to be 296,598. Undoubtedly within another year it will reach the 300,000 mark. The city is growing grandly. Its Directory well represents it and keeps step with the march of improvement.

## STREET AND AVENUE DIRECTORY.

#### EXPLANATION.

It will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, giving the course which they run, according as sens as possible, to the points of the compass, and enumerating all streets which cross the same in the order in which they occur. The streets in the city were renumbered in 1868, and the following method was adopted, to wit: From the starting point of the street, measuring along the line of the street, twenty feet; then making No. 1 to the right-hand side, and No. 2 to the left-hand side, and so on, each twenty feet, whether there be a building or a varancy or a street crossing. The number on one corner has been given, so that a person wishing to find, say, 499 Main Street, on consulting the Street Directory, fluid shat the right-hand corner of Main and Mohawk is No. 487, consequently the place he seeks is only a few doors above.
